WSI SUPPORTS SOUTH AFRICA

For every foal WSI registers we make a contribution to the Mitvah School. Since 1986, at the height of the apartheid-era State of Emergency, the Mitvah School has enabled hundreds of poor students from Alexandra Township to pass their matric exam and enter university and/or pursue good careers. The extended damline has produced many more international showjumping and dressage horses and approved stallions including Ringo (Belgian 6-Year-Old Showjumping Champion), Temptation van Herikhave (Vice-Champion of Italy's Stallion Performance Test), Fontaine, Mercurius, Tiroka, and Independent. The first small crop of foals sired by Ulysses m2s includes the 2009 British 4-Year-Old Joint Showjumping Champion Millfield Ultymate and the eventing horses Advocate m2s and Antrim Coast m2s. FOUNDATION DAMLINE PROFILE

WSI Damline 7 descends from Hanoverian stamm 765. The foundation mares in the WSI studbook are Odessa (Iroko x Voltaire) and her daughter Adessa m2s (by Ulysses m2s). Odessa's daughter Airborne m2s (by Orlando) is the dam of Wind Shear m2s (by Ekstein), an international showjumper in South America. Odessa's daughter Condessa m2s (by Condios) is a national showjumper and the dam of Millfield Ultymate (by Ulysses m2s), co-bred by Morningside Stud and Millfield Stud and the Joint Winner of the 2009 4-Year-Old Showjumping Championship in Great Britain. Odessa's daughter Bodessa m2s (by Ulysses m2s) is owned by Irish international dressage rider Judy Reynolds and will soon come out in sport in Germany. Adessa m2s is the dam of the stallion prospect A-Rod m2s (by Wang Chung m2s), her first foal. The extended damline has produced the international showjumpers Taxco LS, Chamico LS, Laszlo, New Gold, Cassus van Cayzele, and Kalstergold. The 2008 and 2009 Bundeschampion Lissaro van de Helle also descends from this damline.

DID YOU KNOW?

Approved and Licensed stallions must have no Irish Draught blood, except in extraordinary circumstances when the Stallion Inspection Committee, for compelling and documented reasons, may approve or license a stallion with no more than 12.5% Irish Draught blood as computed by an analysis conducted by the Studbook of the stallion's five generation pedigree.
